## 2020 Tuesday Night Net Report

6 January 2021

Greg Liverman, K0MGL

The Tuesday Night Net participation and duration increased again during 2020. 2020 average participation was 143% of 2019 and 2020 average duration was 144% of 2019.

2019 Summary					
Duration			Participants		
Max	Min	Avg	Max	Min	Avg
0:37	0:07	0:18	14	2	7

2020 Summary					
Duration			Participants		
Max	Min	Avg	Max	Min	Avg
0:45	0:10	0:26	14	4	10

In my opinion, factors contributing to that increase were the weekly COVID-19 report during the net and the fact that more hams are on the air due to less travel outside the home during 2020.
